Senate:
"Sir,-I have the honor to ac knowledge the receipt of a copy of the resolution passed by the Senate in executive session on yesterday, as follows: 'Resolved, That the Attorney-General be, and he hereby is, directed to transmit to the Senate as soon as may be the originals or copies of all official papers, correspondence, and official papers, correspondence, and reports in the possession of the De-partment of Justice concerning the administration and conduct of the office of marshal for the Eastern district of North Carolina from the of North Carolina from the lat of January, 1885, to this date; and in reply I beg leave to state that there are no official papers, corre-

spondence, and reports in possession of this Department touching the matter spoken of in the resolution since the let day of January, 1885. If the resolution grows out of the matter of the sus-pension of J. B. Hill, Esq., marshal of the district named, I beg leave to say that the President authorizes me to state that such suspension was made for the sole reason that Mr. Hill left his home in Raleigh, in 1884, while he was a marshal of the United States, and went to the Republican Convention of the First congressional district, in which he had lived before his removal to Raleigh, but from which he had removed many years since, and that by active canvass he succeeded in having himself appointed by said convention a delegate to the National Convention at Chicago; and that he attended such Convention in the capacity of a delegate, and participated in the proceedings of the same.

THE UNINTLED COMPLETION OF THE TOBACCO MARKET.

Salling-Beath of a Gypey-Strange Affair-Personal Hotes.

AUGUST 11, 1886.

August 11, 1886.

The past week has been a fairly good one in tobacco, though the receipts for the past two days—as is always the case during the first of the week—have been light. Owing to the method adopted by the Tobacco Association of this city settlements are only made between warehouse-men and commission-merchants on Saturday and up to that time; consequently official statements of sales are always made as of the week ending Saturday. The sales for the past week footed up 792,800 pounds, an increase of 128,800 over that preceding. There has been an increase of sales from October 1, 1885, to 7th of August, 1886, over the corresponding period of last year of 6,309,600 pounds. A tendency to speculation has exist. A tendency to speculation has existed, owing to unfavorable reports of the
growing crop, but it has had no perceptible effect on the market; indeed,
there is a shakiness or uncertaint ty among conservative or cautious dealers with regard to the rumors about short crops, and this is likely to continue until the result of the present and late rains is made apparent. It is hoped and believed that the recent rains will add materially to what was anticipated as a short crop, and it is equally a subject of anxiety that the coming supply shall be of better quality. Dealers here will be heartly glad when the present supply of common stuff shall be exhausted.

About two miles from the city or the New London turnpike there has been for the past three weeks an encampment of Gypsies, neither English, nor Spanish, but, strange to relate, Irish. They consist of thirteen persons-men, women, and children-di-vided into three families. A death smong them yesterday brought to notice the incongruous character of these strange people. This particular party have with them several tents and quite a dozen horses, which they trade, while the one Egyptian woman in the company tells the fortunes of those who cross her palm with the necessary dollar. At meals they eat on a goodsbox out of solid silver table ware. They sleep on beds laid in straw on the ground. with gold watches and trinkets of value all around them. The woman who died yesterday of typhoid-fever, despite the attention of two of our best physicians, was the daughter of the "Egyptian" woman and an Irish father. She was named Annie Costelo, was aged thirty-one, and single. Though with only a tent for a shelter from the elements, her companions gave her every attention possible under the peculiar surroundings, and embalmed her body after death and sent her to Elizabeth

N. J., in a casket costing \$225.

An unfortunate affair occurred at Campbell Courthouse on Monday-an assault on Rev. W. G. Lumpkin, an old and well-known minister, in charge of the Methodist Episcopal church, South, by a young man named Perrow. The difficulty grew out of the late discussion of the local-option question in Campbell, Mr. Lumpkin, who is a zealous temperance advocate, having, it is alleged, denounced Perrow, who is equally ardent on the "ardent" side, from the pulpit. Mr. Lumpkin was pretty severely handled, though no bones were broken. The occurrence is greatly regretted by

the better element of the community.

An old colored man named Riley Harvey, who has been "blowing the horn" for the tobacco-breaks in this city for more than a half century, was ied yesterday. At a called meetin of the tobacconists of the city resolutions of respect to his memory were passed and ordered to be published in the city papers. A large number of the members of the Tobacco Association attended his funeral.

Captain R. W. Snead is rapidly recovering from the wounds received in the rencontre with Mr. John T. Taylor, and, it is expected, will soon be on the

A telegram from Big Spring to-day says that Mr. David E. Bookar, tobacconist, of this city, who was so severely injured by jumping from a train on Sunday while in motion, is still living and rested well last night. His physicians, however, do not entertain the slightest hopes of his recovery.
